Dear Mr Jaffe,

I am writing to tell you that I totally support the petition to ban the forced molting of layer hens. It is sick, barbaric and totally unnecessary. The stressful conditions weaken the hens immune systems so they are much more prone to diseases including salmonella.

It is banned in Great Britain and most European countries don't allow food deprivation for more than 24 hours. Don't you think that it's time to follow the example. Stop animal cruelty

Yours Sincerely,
